A 200	Continued From page 5 local zoning and the Florida Building Code. 3. Each assisted living facility is unique in size; the types of care provided; the physical and mental capabilities and needs of residents; the type, frequency, and amount of services and care offered; and staffing characteristics. Accordingly, this rule does not limit the types of systems or equipment that may be used to achieve temperatures at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. The plan shall include information regarding the systems and equipment that will be used by the assisted living facility and the fuel required to operate the systems and equipment. a. An assisted living facility in an evacuation zone pursuant to chapter 252, F. S. must maintain an alternative power source and fuel as required by this subsection at all times when the assisted living facility is occupied but is permitted to utilize a mobile generator(s) to enable portability if evacuation is necessary. b. Assisted living facilities located on a single campus with other facilities under common ownership, may share fuel, alternative power resources, and resident space available on the campus if such resources are sufficient to support the requirements of each facility's residents, as specified in this rule. Details regarding how resources will be shared and any necessary movement of residents must be clearly described in the emergency power plan. c. A multistory facility, whose comprehensive emergency management plan is to move residents to a higher floor during a flood or surge event, must place its alternative power source and all necessary additional protection so it can safely operate in a location protected from flooding or storm surge damage. CZ841	Continued From page 15 visitation policies and procedures. The policies and procedures must, at a minimum, include control and education policies for visitors; screening, personal protective equipment, and other control protocols for visitors; permissible length of visits and numbers of visitors, which must meet or exceed the standards in ss. 400.022(1)(b) and 429.28(1)(d), as applicable; and designation of a person responsible for ensuring that staff adhere to the policies and procedures. Safety-related policies and procedures may not be more stringent than those established for the provider's staff and may not require visitors to submit proof of any or immunization. The policies and procedures must allow consensual physical contact between a resident, client, or patient and the visitor. (b) A resident, client, or patient may designate a visitor who is a family member, friend, guardian, or other individual as an essential caregiver. The provider must allow in-person visitation by the essential caregiver for at least 2 hours daily in addition to any other visitation authorized by the provider. This section does not require an essential caregiver to provide necessary care to a resident, client, or patient of a provider, and providers may not require an essential caregiver to provide such care. (c) The visitation policies and procedures required by this section must allow in-person visitation in all of the following circumstances, unless the resident, client, or patient objects: 1. End-of-life situations. 2. A resident, client, or patient who was living with family before being admitted to the provider's care is struggling with the change in environment and lack of in-person family support. 3. The resident, client, or patient is making one or	CZ841

CZ841	Continued From page 17 On at 9:30 A.M., a request was made by the surveyor for the administrator to provide the facility's visitation policies and procedures. Review of the facility records that were provided revealed none were of a visitation policy that contained control and education policies for visitors; personal protective equipment, and other control protocols for visitors; permissible length of visits and designation of a person responsible for ensuring that staff adhere to the policies and procedures and indicate the allowance of in-person visitation in all of the following circumstances: 1. End-of-life situations. 2. A resident who was living with family before being admitted to the provider's care is struggling with the change in environment and lack of in-person family support. 3. The resident is making one or more major medical decisions. 4. A resident is experiencing emotional distress or grieving the loss of a friend or family member who recently . 5. A resident needs cueing or encouragement to eat or drink which was previously provided by a family member or caregiver. 6. A resident who used to talk and interact with others is seldom speaking. In addition, review of the facility's website on at 12:08 P.M. revealed a visitation policy was not accessible from the homepage. On at 4 P.M., a visitation policy was never provided.
