A 010 SS=G	429.26( ) FS; 59A-36.006(4) FAC Admissions - Continued Residency 429.26 Appropriateness of placements; examinations of residents.- (1) The owner or administrator of a facility is responsible for determining the appropriateness of admission of an individual to the facility and for determining the continued appropriateness of residence of an individual in the facility. A determination must be based upon an evaluation of the strengths, needs, and preferences of the resident, a medical examination, the care and services offered or arranged for by the facility in accordance with facility policy, and any limitations in law or rule related to admission criteria or continued residency for the type of license held by the facility under this part. The following criteria apply to the determination of appropriateness for admission and continued residency of an individual in a facility: (a) A facility may admit or retain a resident who receives a health care service or treatment that is designed to be provided within a private residential setting if all requirements for providing that service or treatment are met by the facility or a third party. (b) A facility may admit or retain a resident who requires the use of assistive devices. (c) A facility may admit or retain an individual receiving hospice services if the arrangement is agreed to by the facility and the resident, additional care is provided by a licensed hospice, and the resident is under the care of a physician who agrees that the physical needs of the	A 010

resident can be met at the facility. The resident must have a plan of care which delineates how the facility and the hospice will meet the scheduled and unscheduled needs of the resident, including, if applicable, staffing for nursing care.
(d)1. Except for a resident who is receiving hospice services as provided in paragraph (c), a facility may not admit or retain a resident who is bedridden or who requires 24-hour nursing supervision. For purposes of this paragraph, the term "bedridden" means that a resident is confined to a bed because of the inability to:
a. Move, turn, or reposition without total physical assistance;
b. Transfer to a chair or wheelchair without total physical assistance; or
c. Sit safely in a chair or wheelchair without personal assistance or a physical .
2. A resident may continue to reside in a facility if, during residency, he or she is bedridden for no more than 7 consecutive days.
3. If a facility is licensed to provide extended congregate care, a resident may continue to reside in a facility if, during residency, he or she is bedridden for no more than 14 consecutive days.

(2) A resident may not be moved from one facility to another without consultation with and agreement from the resident or, if applicable, the resident's representative or designee or the resident's family, guardian, surrogate, or attorney in fact. In the case of a resident who has been placed by the department or the Department of Children and Families, the administrator must notify the appropriate contact person in the applicable department.

(4) CONTINUED RESIDENCY. Except as follows in paragraphs (a) through (c) of this subsection, criteria for continued residency in any licensed facility must be the same as the criteria for admission. As part of the continued residency criteria, a resident must have a -to- medical examination by a health care practitioner at least every 3 years after the initial assessment, or after a significant change, whichever comes first. A significant change is defined in Rule 59A-36.002, F.A.C. The results of the examination must be recorded on the practitioner's form or on AHCA Form 1823, which is incorporated by reference in paragraph (2)(b) of this rule and must be completed in accordance with that paragraph. Exceptions to the requirement to meet the criteria for continued residency are:
(a) The resident may be bedridden for no more than 7 consecutive days, unless the resident is receiving licensed hospice services pursuant to Section 429.26(1)(c), F.S.
(b) A resident requiring care of a may be retained provided that:
1. The resident contracts directly with a licensed home health agency or a nurse to provide care, or the facility has a limited nursing services license and services are provided pursuant to a plan of care issued by a health care practitioner,
2. The condition is documented in the resident's record; and,
3. If the resident's condition fails to improve within 30 days, as documented by a health care

Each assisted living facility shall prepare a detailed plan ("plan") to serve as a supplement to its Comprehensive Emergency Management Plan, to address emergency environmental control in the event of the loss of primary electrical power in that assisted living facility which includes the following information: (a) The acquisition of a sufficient alternate power source such as a generator(s), maintained at the assisted living facility, to ensure that current licensees of assisted living facilities will be equipped to ensure air temperatures will be maintained at or below 81 degrees Fahrenheit for a minimum of ninety-six (96) hours in the event of the loss of primary electrical power. 1. The required temperature must be maintained in an area or areas, determined by the assisted living facility, of sufficient size to maintain residents safely at all times and that is appropriate for resident care needs and life safety requirements. For planning purposes, no less than twenty (20) net square per resident must be provided. The assisted living facility may use eighty percent (80%) of its licensed bed capacity as the number of residents to be used in the to determine the required square footage. This may include areas that are less than the entire assisted living facility if the assisted living facility's comprehensive emergency management plan includes allowing a resident to congregate when he or she desires in portions of the building where temperatures will be maintained and includes procedures for monitoring residents for signs of heat related injury as required by this rule.
