If the notifications are maintained in an electronic format, facility staff must be readily available to access and produce the notifications. For purposes of this section, "readily available" means the ability to immediately produce the notifications, either in electronic or paper format, upon request. This Statute or Rule is not met as evidenced by: Based on observation and interview the facility failed to maintain a working alternate power source (generator) to maintain room temperatures at or below 81 degrees for a minimum of 48 hours in case of the loss of primary power. The facility failed to have a functional monoxide detector inside the facility. Finding included: Observation on at 9:15 AM showed that Staff B attempted to start the emergency portable generator on the patio for several minutes, but the generator would not start. Further observation on at 12:25 PM showed that the Owner tried to start the generator for several more minutes, but the generator never started. Observation on at 10:20 AM revealed that the monoxide detector, which was located in the common area, was not working. On at 12:35 PM, the Owner stated, "It is not going to start; the battery is ." He added that he will get some batteries for the monoxide detector.	A 200
