RE: Final Recertification Monitoring Evaluation Report – Belle Haven Assisted Living, Belmond, IA

Dear Ms. Hanson:

Enclosed is the **Final Recertification Monitoring Evaluation Report** completed by the Department of Inspections and Appeals (DIA) in accordance with Iowa Code chapter 231C and Iowa Administrative Code (IAC) chapters 481–67 and 481–69. **No Regulatory Insufficiencies were found during this evaluation.**

The review of the recertification documents you submitted has been completed and are accepted. In addition, the State Fire Marshal's (SFM) inspection report has been received as well as the Facility Engineer's approval of the Evacuation Plans for your program.

Enclosed you will find the Assisted Living Program Certificate **S0291** with effective dates of **March 12, 2011** through **March 11, 2013**.

If you have any questions regarding this certification, please contact me at 515/281-7039.

Sincerely,

Rose Boccella

Final Recertification Monitoring Evaluation Report

Assisted Living Program:

Angela Hanson, Administrator
Belle Haven Assisted Living
815 Luicks Lane North
Belmond, IA 50421

Date of Monitoring Visit:

April 27, 2011

Monitor(s):

Hal L. Chase, RN BSN MPH

Definitions:

The following definitions are relevant:

Regulatory Insufficiency - A violation of a statutory or rule provision within the Iowa Code or Iowa Administrative Code (IAC) governing assisted living programs. A regulatory insufficiency requires a plan of correction to be presented to, and approved by, the Department of Inspections and Appeals (DIA).

Plan of Correction - A written response to one or more regulatory insufficiencies that are rule violations. IAC r. 481-67.10(5). The plan should identify how, and by a specific date, an insufficiency will be corrected. The plan is due to DIA within ten (10) working days of the program's receipt of a Recertification Monitoring Evaluation Report. Depending on the circumstances, DIA may revisit the assisted living program to confirm progress in fulfilling a plan's corrective measures.

Dementia-specific assisted living program - An assisted living program certified under 481 IAC chapter 69 that: serves fewer than fifty-five (55) tenants and has five (5) or more tenants who have dementia between Stages 4 and 7 on the Global Deterioration Scale or serves 55 or more tenants and 10 percent or more of the tenants have dementia between Stages 4 and 7 on the Global Deterioration Scale or holds itself out as providing specialized care for persons with dementia, such as Alzheimer's disease, in a dedicated setting.

Overview:

An on-site monitoring evaluation was conducted at Belle Haven Assisted Living on April 27, 2011. In preparing this report, the following information was considered:

Current Program Census:

General Population Program (GPP)* – A program that is not a Dementia Specific program, but may have tenants with cognitive disorder.

Current number of tenants without cognitive disorder:	17
Current number of tenants with cognitive disorder:	1
Total Population:	18

Dementia Specific Program (DSP)* – Not applicable.

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

***These are the census numbers represented by the program to be applicable at the time of the on-site.**

Tenant/Family Satisfaction Results – A community meeting was held with 17 tenants. Tenants preferred living in their own homes, but if they couldn't live at home they like living at the program. The building, grounds and apartments were clean, safe and sanitary. Housekeeping services provided by staff were done to a high standard. Staff were helpful, caring and available when needed. Staff responded to calls for assistance within five minutes of being called. Staff were trained well and knew what services each tenant needed. Tenants felt safe, made their own decisions and reported the food was good without any complaints. Activities were scheduled daily, including weekends. Tenants would recommend the program to others.

Program History – The program did not receive any regulatory insufficiencies during this certification period.

On-Site Monitoring Evaluation – The monitor(s) made the observations detailed in the following areas. There were no regulatory insufficiencies during this onsite investigation.

Dated this 2nd day of May, 2011.
