A3020	Continued From page 1 Findings include: During the employee file review with E2(Resident Services Director) on 6/11/26, many of the staff did not have the required disaster preparedness training (E2, E7, E8, E9, E10, E11, E12). E2 explained E5(Director of Community Operations/Disaster Preparedness) who was on vacation would have in-service record for staff on disaster preparedness. Completion of the staff requirements review was delayed until June 16th when E5 returned. On 6/16/26 at 9:30 am E5 had 2 different explanations in support of completion of staff disaster preparedness training initially stating the disaster preparedness training was completed during an in-person session. E5 was asked to forward those documents and presented 3 illegible names of staff who participated in an evacuation drill as evidence of completion of required training. E5 could not decipher all the names of the staff on the drill exercise report she presented as evidence of completion of training in disaster preparedness. E5 was advised participation in disaster preparedness drills is one of the requirements but does not fulfill the orientation and ongoing training requirement in disaster preparedness. E5 then explained the employees missing the disaster preparedness training had participated in online "fire safety" training which included disaster preparedness topics. E5 was asked for a copy of the content covered in fire safety and was reminded online "fire safety" training goes over fire extinguisher usage including rescue, alarm, contain and evacuate acronym. E5 maintained the RACE acronym covers disaster	A3020
