RE: Project Number(s) SL40900015

Dear Licensee:

This is your **official notice** that you have been **granted your assisted living facility license.** Your license effective and expiration dates remain the same as on your provisional license. Your updated status will be listed on the license certificate at renewal and **this letter serves as proof** in the meantime. If you have not received a letter from us with information regarding renewing your license within 60 days prior to your expiration date, please contact us at (651) 201-5273 or by email at Health.assistedliving@state.mn.us.

The Minnesota Department of Health completed an initial survey on September 10, 2025, for the purpose assessing compliance with state licensing statutes. At the time of the survey, the Minnesota Department of Health noted violations of the laws pursuant to Minnesota Statute, Chapter 144G.

The Department of Health concludes the licensee is in substantial compliance. State law requires the facility must take action to correct the state correction orders and document the actions taken to comply in the facility's records. The Department reserves the right to return to the facility at any time should the Department receive a complaint or deem it necessary to ensure the health, safety, and welfare of residents in your care.

STATE CORRECTION ORDERS
The enclosed State Form documents the state correction orders. The Department of Health documents state correction orders using federal software. Tag numbers are assigned to Minnesota state statutes for Home Care Providers. The assigned tag number appears in the far left column entitled "ID Prefix Tag." The state statute number and the corresponding text of the state statute out of compliance are listed in the "Summary Statement of Deficiencies" column. This column also includes the findings that are in violation of the state statute after the statement, "This MN Requirement is not met as evidenced by . . ."

In accordance with Minn. Stat. § 144G.31 Subd. 4, MDH may assess fines based on the level and scope of the violations; **however, no immediate fines are assessed for this survey of your facility**.

DOCUMENTATION OF ACTION TO COMPLY
Per Minn. Stat. § 144G.30, Subd. 5(c), the licensee must document actions taken to comply with the

correction orders within the time period outlined on the state form; however, plans of correction are not required to be submitted for approval.

The correction order documentation should include the following:

- Identify how the area(s) of noncompliance was corrected related to the resident(s)/employee(s) identified in the correction order.
- Identify how the area(s) of noncompliance was corrected for all of the provider's residents/employees that may be affected by the noncompliance.
- Identify what changes to your systems and practices were made to ensure compliance with the specific statute(s).

CORRECTION ORDER RECONSIDERATION PROCESS

In accordance with Minn. Stat. § 144G.32, Subd. 2, you may challenge the correction order issued, including the level and scope, and any fine assessed through the correction order reconsideration process. The request for reconsideration must be in writing and received by the Department of Health within 15 calendar days of the correction order receipt date.

To submit a reconsideration request, please visit:
https://forms.web.health.state.mn.us/form/HRDAppealsForm

The MDH Health Regulation Division (HRD) values your feedback about your experience during the survey and/or investigation process. Please fill out this anonymous provider feedback questionnaire at your convenience at this link: **https://forms.office.com/g/Bm5uQEpHVa**. Your input is important to us and will enable MDH to improve its processes and communication with providers. (b) The facility must provide emergency and disaster training to all staff during the initial staff orientation and annually thereafter and must make emergency and disaster training annually available to all residents. Staff who have not received emergency and disaster training are allowed to work only when trained staff are also working on site. (c) The facility must meet any additional requirements adopted in rule. OA-B stated she would continue to review and update the plan as needed. (a) Fire protection and physical environment Each assisted living facility must comply with the State Fire Code in Minnesota Rules, chapter 7511, and: This MN Requirement is not met as evidenced by: Based on observation and interview, the licensee failed to maintain facility in compliance with Minnesota State Fire Code under Minnesota Rules Chapter 7511. This had the potential to affect all residents, staff, and visitors. This practice resulted in a level two violation (a violation that did not harm a resident's health or safety but had the potential to have harmed a resident's health or safety, but was not likely to cause serious injury, impairment, or death) and was issued at a pattern scope (when more than a limited number of residents are affected, more than a limited number of staff are involved, or the situation has occurred repeatedly; but is not found to be pervasive). The findings include: On September 10, 2025, from approximately 12:15 p.m. to 2:20 p.m., the surveyor toured the facility with clinical nurse supervisor (CNS)-D. OA-B stated that the facility was in the process of developing these policies.
