C 000	Initial Comments The Adult Care Licensure Section conducted an annual and follow-up survey on November 17, 2022.	C 000		
C 292	10A NCAC 13G .0905 (d) Activities Program 10A NCAC 13G .0905 Activities Program (d) There shall be a minimum of 14 hours of a variety of planned group activities per week that include activities that promote socialization, physical interaction, group accomplishment, creative expression, increased knowledge and learning of new skills. Homes that care exclusively for residents with HIV disease are exempt from this requirement as long as the facility can demonstrate planning for each resident's involvement in a variety of activities. Examples of group activities are group singing, dancing, games, exercise classes, seasonal parties, discussion groups, drama, resident council meetings, book reviews, music appreciation, review of current events and spelling bees. This Rule is not met as evidenced by: Based on interviews and observations, the facility failed to assure a minimum of 14 hours of planned group activities were planned each week, that promoted socialization, physical interactions, group accomplishment, creative expression, increased knowledge and learning of new skills for the 6 residents living in the facility. The findings are: Observation on 11/17/22 at 8:45 a.m. revealed no activity calendar was posted at the facility.	C 292

C992	Continued From page 6 for applicants for employment in adult care homes. (a) An offer of employment by an adult care home licensed under this Article to an applicant is conditioned on the applicant's consent to an examination and screening for controlled substances. The examination and screening shall be conducted in accordance with Article 20 of Chapter 95 of the General Statutes. A screening procedure that utilizes a single-use test device may be used for the examination and screening of applicants and may be administered on-site. If the results of the applicant's examination and screening indicate the presence of a controlled substance, the adult care home shall not employ the applicant unless the applicant first provides to the adult care home written verification from the applicant's prescribing physician that every controlled substance identified by the examination and screening is prescribed by that physician to treat the applicant's medical or psychological condition. The verification from the physician shall include the name of the controlled substance, the prescribed dosage and frequency, and the condition for which the substance is prescribed. If the result of an applicant's or employee's examination and screening indicates the presence of a controlled substance, the adult care home may require a second examination and screening to verify the results of the prior examination and screening. This Rule is not met as evidenced by: Based on interviews and record reviews, the facility failed to ensure 1 of 2 staff (staff B) had no examination and screening for the presence of controlled substances completed upon hire. The findings are:	C992
