| K 000                                                       | INITIAL COMMENTS<br><br>This survey used the 2012 edition of NFPA 101, Life Safety Code, Chapter 19-Existing Health Care Occupancies and the 2012 edition of NFPA 99, Health Care Facilities Code in compliance with 42 CFR 483.70(a)(b). The findings that follow demonstrate noncompliance with these standards.<br><br>The facility was located in a one-story building of Type V (000) construction with a partial basement. In 2012, additions were added to the southeast side of the existing building and a new entryway and dining area to the First Street Wing. The additions were Type V (111) construction.<br><br>The building had a wet and dry automatic sprinkler system designed to meet the requirements of NFPA 13, Standard for the Installation of Sprinkler Systems. An occupancy separation wall having a two-hour fire resistance rating was located between the assisted living building and the east side of Elim Care Center. |                                                                            |  | K 000                                                                                       |                                                                                                                          |                                                        |                            |

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
